

Delock PCI Express Card x4 > 4 x external USB 3.0-A (Quad Channel)

Description

The Delock PCI Express card expands your PC by four external USB 3.0-A ports. You can connect USB devices like e.g. docking station, card reader, hub, external enclosure etc. to the card. The card stands out due to the four USB Host Controller which can use one lane of the PCIe bus with 5 Gb/s.
